

Certified Security Practitioner

Certification Date

05/20/2025

Expiration Date

05/20/2026

Will Expire Soon

Certified professionals are equipped with the proven strategies and hands-on skills needed to transform vulnerable environments into secure, standardized networks. They learn to identify hidden gaps, shut down legacy threats, and deploy controls that withstand today's cyber attacks. More than just technical fixes, GCSP practitioners master the art of defensible documentation—ensuring every action taken reduces liability and meets rising regulatory demands. Built for the frontline, GCSP brings clarity, confidence, and control to those responsible for protecting what matters most.
